Total Solar Eclipse Explained

Saturday, April 6
11:00 am

Montezuma National Wildlife Refuge
Visitor Center
3395 US-20, Seneca Falls, NY 13148

Join retired Astronomy Educator and New York State Master Naturalist Volunteer Pete Saracino for a presentation about the Total Solar Eclipse of April 8, 2024.

The presentation will explore: the celestial mechanics behind eclipses; why this particular eclipse is unique; what happens in the sky and on the Earth as the eclipse unfolds; important safety rules for eclipse watching; and even some solar eclipse legends and lore.

The presentation will help you enjoy the eclipse in a safe and more knowledgeable way.
